INVASION BEGUN.

General Miles' Advance Expedition Has Sailed For Porto Rico.

LARGE ARMY TO FOLLOW

Thirty Thousand to Seventy Thousand Men Will Be Sent at Once.

LANDING PLACE NOT DIVULGED.

Now That Cervera Is Out of the Way Transports Will Not Need Convoys—No General Rendezvous For the Start.

WASHINGTON, July 19.—After three days' consultation between the president, Secretary Alger and General Brooke, during which there was frequent communication with General Miles at Siboney, the details of the Porto Rican expedition were perfected, and the expedition itself was got under way, General Miles, with some artillery and troops, sailing yesterday for Porto Rico on the converted cruiser Yale, to be followed quickly by an army of about 30,000 men.

There are some notable differences in the plans for this expedition and for the stately naval pageant that sailed away from Tampa under General Shafter's command to attack Santiago. First, there will be practically no naval convoys. The navy department has declared that they are unnecessary, that there is not a Spanish warship in the West Indies that dare thrust its bow out of port. In the second place, the expedition does not start from one ponit, but will be divided among several ports, thus preventing the tremendous congestion that was encountered at Tampa in the effort to start the big fleet. Lastly, there will be no effort made to get the ships away together, but the transports will be allowed to find their own way to their destination without concerted movements.

General Miles leads the way. He had been promised by the president that he should go to Porto Rico, and the promise was redeemed when the Yale headed yesterday from Siboney for Porto Rico, 800 miles distant. General Brooke will be the senior officer in Miles' command, and upon him will fall the responsibility for the execution of the details of his superior's plans. It is estimated that General Miles should arrive by tomorrow night at the point selected for the landing and will hoist the American flag at once over Porto Rican soil. The point chosen for his landing is kept secret, as the general will land before the full body of the expedition is at hand, and it is consequently not desirable that the enemy should be able to assemble a superior force to meet him. The distance from Charleston, where the first body of troops for Miles' expedition was to start, is more than double the distance from Santiago to Porto Rico, so that the transports which sail from the former city can scarcely reach General Miles before the early part of next week. The Charleston troops are the First brigade of the First division of the First army corps and are commanded by Brigadier General George H. Ernst. The brigade comprises the Second Wisconsin, Third Wisconsin and Sixteenth Pennsylvania regiments.

The purpose of Secretary Alger is to make the Porto Rican campaign a short one. An overwhelming force will be thrown upon the island, and it is possible that a bloodless victory will be achieved when the Spanish become convinced that they have no reasonable chance to resist successfully.

The expedition is to comprise 30,000 men at the start, and it will be soon swelled to 40,000 men and if necessary to 70,000 men, the equipment of the volunteer forces having now progressed so well as to warrant the statement that that number of men can be ready for service in Porto Rico within a very short time. The entire body of troops at Tampa will be taken, numbering about 13,000 men and including a lot of heavy and light artillery under command of General Rodgers. The expedition will be particularly strong with artillery, as some of that at Santiago commanded by General Randolph is to be drawn upon. The Tampa troops are known as the Fourth corps, under Major General Coppinger, comprising the Second division under Brigadier General Simon Snyder and made up of the First brigade, Brigadier General Schwan, Eleventh and Nineteenth United States infantry; Second brigade, Brigadier General Carpenter, Second New York and Fifth Maryland; Third brigade, Brigadier General Hale, Third Pennsylvania, One Hundred and Fifty-seventh Indiana and First Ohio; Third division, Brigadier General Kline, commanding; First brigade, Colonel C. L. Kennan, Fifth Ohio, First Florida and Thirty-second Michigan; Second brigade, Brigadier General Lincoln, Sixty-ninth New York, Third Ohio and Second Georgia; the provisional cavalry brigade, Colonel Noyes, Fifth United States and detachments of First, Second, Third, Sixth and Tenth United States cavalry and eight troops of Rough Riders; artillery brigade, General Randolph, two light and ten heavy batteries. It is possible that the cavalry will not be called upon.

General Brooke will take with him from Chickamauga park most of the First and Second brigades of his army corps, the First. These are, in addition to General Ernst's brigade at Charleston, the Second brigade, First division, General Haines, Fourth Ohio, Third Illinois and Fourth Pennsylvania; Third brigade, Colonel J. S. Culver, First Kentucky, Third Kentucky and Fifth Illinois; Second division, Colonel J. S. Poland, commanding; First brigade, Brigadier General C. T. Roe, Thirty-first Michigan, First Georgia and One Hundred and Sixtieth Indiana; Second brigade, General McKee, Sixth Ohio, Fifteenth Indiana and First West Virginia; Third brigade, Brigadier General Rosser, Second Ohio, First Pennsylvania and Fourteenth Minnesota.

The part which the navy is to take in the assault against Porto Rico has been fully matured. The several transport fleets will have with them one or two auxiliary craft carrying strong secondary batteries of six or eight 6 pounders. Secretary Long said yesterday afternoon that no time had been fixed for the departure of Admiral Sampson's fleet for San Juan. As to the naval plans he would only say that they would co-operate in every way with the movements of the army. The report that three monitors were on their way from Key West to San Juan was characterized by the secretary as unauthorized. It is the general understanding, however, that the navy will rely mainly on armored ships for the bombardment of San Juan, as the big battleships and monitors afford the best means of offensive warfare, while their armor belts protect them from such fire as the San Juan batteries can bring to bear. The fortifications there are much like those of Santiago, with a Morro Castle at the entrance of the harbor and a number of lesser fortifications leading up to the city. These, however, are viewed with less awe since an examination of the Morro batteries at Santiago has shown them to be antiquated and capable of little effective resistance.

The movement of the ships from Santiago to their new fields of action will begin at once, and it is probable that some of Admiral Sampson's ships will be detached immediately and proceed with General Miles' first expedition toward Porto Rico. They will be needed to cover the debarkation of the troops on the Porto Rican coast. The others will follow as soon as the full army expedition is ready to make a landing, when the attack will begin simultaneously on land and sea.

It has been finally decided that none of the troops that participated in the actual fighting before Santiago shall be employed on the Porto Rican expedition. There are two reasons for this. First, the men have suffered severely from hardships, the climate and from fevers, and are entitled to a rest; second, it is deemed to be very bad practice to allow the soldiers who have been exposed to yellow fever to be brought in contact with those fresh from the United States. There is also still another reason, a purely military one. Ten thousand Spanish troops are at Holguin, Manzanillo and other points within striking distance of Santiago and might not lose an opportunity to recover the ground lost at Santiago if the place were left insufficiently protected. Therefore Shafter's entire army is apt to be kept on guard on the high hills in the rear of the town until the men have stamped out the yellow fever. Then they will take a turn at the Spaniards if they can be found, and it may be that Shafter's march will end at Havana. He will work as far from his base as possible after his army is thoroughly refreshed, hunting the enemy wherever they are liable to be found.

REPORT FROM GOMEZ.

Lieutenant Ahern Brings Dispatches From Cuban General.

WASHINGTON, July 19.—Lieutenant Ahern brought to Secretary Alger yesterday a report of the expedition which carried supplies to General Gomez in the Florida and Fanita. The expedition was under the command of Lieutenant Johnson, Tenth cavalry, who has remained in charge to see that the arms and supplies are distributed according to the wishes of the United States government. Lieutenant Ahern comes direct from the Cuban general, whose headquarters are near Sancti Espiritus, in the province of Santa Clara, and brings important reports from General Gomez to Secretary Alger.

General Gomez was found to have about 5,000 men poorly armed and equipped and with very little in the way of supplies. The supplies sent by the United States will enable Gomez to fully equip his troops and make it possible for them to be of some use in expelling Spain from the island. The expedition carried dynamite guns, rifles, ammunition, food, clothing and many other things in large quantities. It landed on the south shore of Cuba west of the trocha and was able to reach Gomez without great difficulty. Further supplies will be sent to Gomez so as to enable him to maintain his army in the interior of Cuba.

Caimaners Surrenders.

PLAYA DEL ESTE, Cuba, July 19.—The following is received from Camp McCalla, dated July 18, 7 p. m.:

A launch from the Marblehead went up the bay this afternoon to Vortcaya del Toral, opposite Caimanera, and gave formal notice to the Spanish commander of the surrender of General Toral's troops, together with the conditions of the capitulation of Santiago. A limited time was fixed for hauling down the Spanish flag over Caimanera.

The American officer also gave notice that if the Spanish gunboat Sandoval was disabled in any way or if any arms, ammunition, public buildings or barracks at Caimanera or Guantanamo were destroyed the Spaniards would not be treated as prisoners of war. The Spanish flag was hauled down this afternoon.

Pension Swindlers Arrested.

PROVIDENCE, July 19.—Three more persons who are alleged to have been concerned in irregularities in the drawing of pensions from the national government were arrested yesterday afternoon. One of the three was James H. Nolan, a notary public who has a place at 158 Charles street. He is accused of antedating pension vouchers.

Mrs. Rebecca Reynolds and her daughter were arrested, charged with drawing a pension for Mrs. Reynolds to which she was not entitled. The woman had been married two years, her first husband being a veteran of the civil war. After marriage the second time she claims to have found that her new husband was not legally married to her by reason of another marriage, and she then applied for a pension on account of her first husband's service in the war. The government claims that her second marriage was a legal one. All three were taken before Commissioner Mumbford for arraignment.

to the y house there are bound to be Morris old shoes lying about in corners boards, and these, by a pair of constru[c]hands, can be metamorphosed [i]nto something that serves at the same [t]ime, for use and ornament. A lady's Facob[y] case made out of an old shoe sounds Larger funny, but anyone following the [d]irections here given for making such light[s]e will be astonished and delighted with the result.

Take the shoe and remove with a sharp knife all the upper except that portion at the end known as the toecap. Then trim very carefully with the knife or with a sharp pair of scissors the rough free edge of the toecap until you have the projecting edge quite smooth.

Next stand the shoe on a piece of cardboard and mark the outline in pencil. This is to be cut out, as is also another piece of exactly the same size. Each piece thus obtained is placed one inside and one outside the shoe, and the whole covered very neatly with some pretty material, velvet or satin preferred, the stitched side being turned under. Cut out some pieces of flannel to put needles in, and sew them to the front of the shoe, just under the ribbon bow shown in the illustration.

Now for the toe. Cut a piece of paper like the toe of your shoe, see that it has the cardboard sole, and then use it for a pattern to cut the cardboard with. You will only need one piece, and this is to be covered with material to match the sole, lined neatly and sewn to the sole.

A pretty cord is then to be sewn right around the edge of the shoe, a loop left to hang it up by, and a ribbon bow tied in the middle of the shoe.

Put scissors and cotton in the pockets, needles in the flannel and pins in the top, just under the hanging loop, and you have a workcase that will not disgrace any room.—N. Y. Herald.

CLOTHES PUT ON ICE.

Cold Storage Proves a Better Preventive of Moths Than Tar Paper or Moth Balls.

Clothes are put on ice now during the summer months. Men's garments and women's alike. It is not meant, of course, that suits and dresses are literally laid upon blocks of ice, there to congeal rapidly, but that clothes are actually placed in the coldest of storage in the heated term.

Tar paper is a remedy of long standing, as is camphor, but it is said that the new plan of the cold storage warehouse is better than either of these. In the first place, the clothes are not packed away tightly, but they are hung on hooks in the storage rooms set apart for that purpose, and they keep their shape much better. Then no odor clings to them when they are taken home in the fall.

You can hire a room for clothes, or a single hook in a room in a progressive cold storage warehouse to-day as you please. This is a more expensive method of preserving winter clothes through the summer than the old-fashioned ways, yet it is not so costly. An odd feature of the cold storage of clothes is that boots are now being received, and it seems to be a popular thing to put them on ice, too.—Chicago Tribune.

A PLAY-DAY DRESS.

Just the Thing for a Little Girl to Wear at a Mountain or Seashore Summer Resort.

There comes a very heavy chambray which is warranted to wear from one season to a life time—with the chances in favor of the life time. It is most useful for children's dresses, as it is positively beyond ripping or tearing.

The chambray costs about 75 cents a yard, but it wears so well that you soon forget the first expenditure.

A very comfortable dress for a little girl is a sailor suit in tan chambray,

made with blouse and plain skirt. The skirt is bordered with a band of lighter weight chambray which comes in stripes or figures. A yoke of plain white chambray stitched with white or black can be worn with this dress, and lapels, belt and cuffs of the fancy chambray can be used for trimming.

In using this strong material it is best not to combine it with light-weight goods which will wear out long before the chambray loses its first newness.

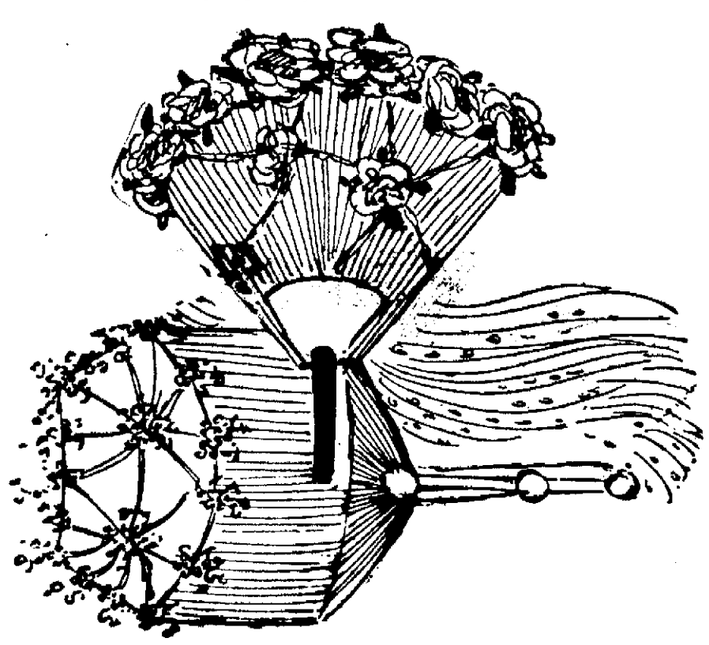
When to Clip the Hair.

The hair should be clipped once a month. This strengthens the roots and promotes the growth. The old mammies of the south insist that this should be done at the new moon, and a luxuriant suit of hair will invariably be the result.

SUMMER PALM LEAVES.

A palm leaf fan in summer is a veritable March wind in dog days. No other fan approaches it in breeziness.

Appreciating this the knowing ones have transferred the palm leaf fan into a thing of beauty as well as coolness. By the aid of a few ribbons and small bunches of artificial flowers it has become as pretty as any fan that waves.



To trim a palm leaf fan you purchase a quantity of tiny roses or forget-me-nots. It [m]atters no difference as long as the flowers are small. These you sew around the edge of the fan. You then attach baby ribbons to the flowers. Fasten the ribbons to a [s]tick-like design upon the fan and you will find that you have a very pretty ornament [t]hat will also be most useful.

Spanish Government Throws Responsibility For Santiago's Surrender on Blanco and Toral—Necessity For Making Peace Universally Admitted.

LONDON, July 19.—The Madrid correspondent of The Times says:

"Captain General Blanco and General Toral were given a free hand in the surrender of Santiago, as the government did not desire to expose itself to such criticism as followed the destruction of Admiral Cervera's squadron, when it was alleged that the government ordered Admiral Cervera to quit the bay.

"The necessity of making peace is now universally admitted, but the necessity of making it quickly is less generally realized, and, partly owing to Senor Sagasta's indecision, apparently nothing definite is being done by the government, which seems in no hurry to make proposals."

The Madrid correspondent of The Daily Mail says:

"It is well known here that for some time past the Carlists have been secretly placing stores, arms and ammunition in many of the smaller towns along the French side of the frontier."

"When the signal for a Carlist rising is given, the taking of these supplies and munitions of war across the frontier will occupy at the most a single night, as the men are ready and know where they must go to receive arms and equipments.

"The Basque provinces seem very quiet, but this is explained by the fact that the orders of Don Carlos are most stringent in the sense that nothing must be attempted until he gives the signal, when the rising is to be general.

"The government has increased measures of precaution to nip in the bud any attempt of the kind. During the last few days more troops have arrived at Tolosa and Vergara, two points of strategical importance in the last civil war. The signal for the rising will probably be given in the country between Catalonia and Valencia (the "Maestrazgo country") and in Navarre, where Don Carlos has his most fanatical partisans. The Basque provinces could follow when the garrisons there shall have been weakened by the necessity of sending troops to fight the Carlists in Navarre.

"I have also information that the Republicans, especially those of Valencia and Andalusia, are buying arms. General Weyler is reported to be in communication with both the Carlists and the Republicans. El Imparcial accuses President McKinley of deliberately prolonging the war in order to carry it into Spain to enable England in the final settlement to derive territorial advantages at Gibraltar or in the Canaries."

THE IRENE AGAIN.

The Hugh McCulloch Stops Her With a Shell—More German Insolence.

LONDON, July 19.—The Hongkong correspondent of The Daily Mail says:

"United States Consul Wildman informs me that as the German cruiser Irene was passing Mariveleo, off Manila, the other day the United States gunboat Hugh McCulloch was sent after her to ask her to stop. As the Irene refused to obey a shell was sent across her bow, and a small boat went to discover what she was doing. The German admiral protested and insisted that German ships had a right to enter the harbor without being searched, a claim which Admiral Dewey declined to recognize.

"It is reported that Admiral von Diederichs, who is in command of the German squadron at Manila, interviewed Captain Chichester of the British cruiser Immortalite as to what he would do if the Germans interfered with the bombardment of Manila. Captain Chichester replied that only Admiral Dewey and himself knew that.

"Admiral Dewey, it is said, recently sent Flag Lieutenant Brunsberg to Admiral von Diederichs, commanding the German squadron, calling attention to several acts of German vessels not authorized by international law or naval custom. Admiral von Diederichs sent his flag lieutenant to Dewey with the explanation that the acts specified had been done without his knowledge.

"Later, it is said, Admiral von Diederichs complained to Dewey that the American ship McCulloch had shown unnecessary severity in overhauling the German cruiser Irene. Dewey replied that our officers had done only what was proper and would continue to enforce the laws and customs usually applicable in time of war."

Troops Assembling at Camp Black.

NEW YORK, July 19.—Two companies of the Two Hundred and First regiment have arrived at Camp Black, and a battalion of the Two Hundred and Second is expected today from Buffalo. Tomorrow a company for the Two Hundred and Third of Syracuse will arrive, and through the week the companies will drop in by ones and twos until the three regiments which New York is to send to the front as its quota of the second call have been assembled.

Manzanillo Bombarded.

LONDON, July 19.—A special dispatch from Havana, dated Monday, says: "Seven American warships heavily bombarded Manzanillo this morning. Three steamers of the Menedez were set on fire. Several gunboats that were in the harbor issued for the defense of the town, but were stranded. The result of the bombardment is not yet known here."

The Middletown Mystery.

MIDDLETOWN, N. Y., July 19.—The inquest into the death of Andrew Madison, who was killed last week by an explosion of dynamite which wrecked his home, is still unfinished. Testimony developed at the latest session of the inquest tends to indicate that several Italians were jealous of the dead man because of his success in a love affair with a Swedish girl. David Wetmore testified that he was informed that two more houses were to be blown up because the persons occupying them were trying to discover who Madison's murderers were.

ON THE TIP OF THE TONGUE.

The 24th boys will never forget their running down of a drove of sheep in Utah, the other day. In a dozen letters sent home, and several of them published, the killing of the sheep is most prominently mentioned. The number killed has ranged from 150 to 250, and the number taken off the cow-catcher from 10 to 19.

The incandescent light on South street, between Fulton and Genung, has not been lighted in a week. The carbon filament has probably burned out, and it's cheaper to charge the city for a light that isn't furnished than to put in a new lamp.

The corporal-doctor, Howard J. Powelson, who has just been ordered to appear for examination in New York city for appointment as army surgeon, was very anxious to secure such an appointment while at Camp Black and Fort Hamilton, but now that he has reached San Francisco, and is en route to Honolulu, with a prospect of going on to the Philippines, it would not be at all surprising if he had changed his mind. The office of surgeon would carry a much larger salary than he receives now, and the place in the U. S. service may become a permanent one; and with this end in view the corporal M. D. may be expected least in a week or so.

Last week, the regular attendants on the balloon ascensions at Midway Park were interested in the rivalry existing between several gallants on the spot as to who should render the last service to fair Nina Madison before she was wafted in air in a pair of red-striped, white knee breeches. Goshen and Middletown were in the contest for fair, and it waxed warm while it lasted.

This week, a new competition has started. The graceful club swinger who appears to advantage in a startling pair of tights, places her clubs in a basket and they are carried to the Cottage Theatre at Mechanictown after her performance. Last night, a Middletown youth carried the clubs, and there is much interest among those who are watching the incident to see who will carry them, to-night.

A colored man crept into this office, to-day, and left the following:

"Dear sir please put in paper the carpenter shop in fulton street is turned into a night loging place. two Wimmon staid there until 3,80 then jumped over fence the shop next to price's

From Diemond who seen it all."

The programme at Midway Park, Monday night, interested a large crowd despite the muggy weather and rainy outlook. Several of the teams gave first class specialties, and the audience was kept in roars of laughter. Even if it is a free show the theatrical loving public has no reason to complain of the quality of the entertainment provided at Midway Park.

The extreme humidity this morning was simply unbearable. Humidity isn't the word, however. It don't give satisfaction. It's like calling a thief an embezzler. Sticky is the word which is best suited to explain the conditions which had to be confronted to-day by business men, or all in the active walks of life. Men threw off all dignity and appeared as gave them the most comfort A dozen men at the counter of the First National Bank made up of lawyers, merchants, etc., were all minus their coats. Business was dull in every line and the sole topic of conversation was the heat here and affairs at Manila, San Francisco and Santiago.

The Erie's Mountain Express, which makes the run from Jersey City to this city in an hour and fifty-one minutes, is the fastest train on the road. Those who ride on the train regularly call it "the cannon ball," and the way in which it whisks about some of the short curves in the Ramapo valley is said to be a hair-raising experience to novices in fast traveling. The train is very popular and carries every afternoon a large number of New York business men whose families are spending the summer in the country.

HAD TOO MUCH MONEY.

Was Near Starvation With a $100 Bill in Her Pocket.

From the Binghamton Republican.

A lady from New York on Erie No. 5, the other night, was very much in the same position as Coleridge's ancient mariner, with "water, water all around and not a drop to drink." After buying her ticket to Chicago she found she had no change, and no time left to get any. Some time after the train left New York she wished to get supper in the buffet car and a hunt was made through the train in search of a passenger who could change a $100 bill, the smallest denomination that the hungry woman possessed. No one could be found, and the woman and her child were getting hungrier every minute. None of the stations at which the train stopped was able to help her out of the difficulty until the train reached Binghamton, when the traveler had made up her mind that she must go hungry until Chicago was reached. But the Binghamton office had money to change bills of all sizes, and the lady ate.

AN HISTORIC PAPER.

President's Directions For Ruling Our New Province.

NO SEVERITY TO BE PRACTICED.

Present Municipal Authority to Be Respected Where It Is Expedient—Right of Confiscation—Military Tribunal the Court of Last Resort.

WASHINGTON, July 19.—A state paper that will be historical, marking an epoch in American history, was issued last night by direction of President McKinley. It provides in general terms for the government of the province of Santiago de Cuba and is the first document of the kind ever prepared by a president of the United States.

By order of Secretary Alger Adjutant General Corbin last night cabled the document to General Shafter, in command of the military forces at Santiago. The paper is not only an authorization and instruction to General Shafter for the government of the captured territory, but also a proclamation to the people of the territory of the intentions of the government of the United States regarding them and their interests. It marks the formal establishment of a new political power in the island of Cuba and insures to the people of the territory over which the power extends absolute security in the exercise of their private rights and relations, as well as security to their persons and property. The full text of the document is as follows:

Adjutant General's Office,
Washington, July 18, 1898.

General Shafter, Santiago, Cuba:

The following is sent you for your information and guidance. It will be published in such manner in both English and Spanish as will give it the widest circulation in the territory under your control:

Executive Mansion,
Washington, July 18, 1898.

To the Secretary of War:

Sir—The capitulation of the Spanish forces in Santiago de Cuba and in the eastern part of the province of Santiago and the occupation of the territory by the forces of the United States render it necessary to instruct the military commander of the United States as to the conduct which he is to observe during the military occupation.

The first effect of the military occupation of the enemy's territory is the severance of the former political relations of the inhabitants and the establishment of a new political power. Under this changed condition of things the inhabitants so long as they perform their duties are entitled to security in their persons and property and in all their private rights and relations. It is my desire that the inhabitants of Cuba should be acquainted with the purpose of the United States to discharge to the fullest extent its obligations in this regard. It will therefore be the duty of the commander of the army of occupation to announce and proclaim in the most public manner that we come not to make war upon the inhabitants of Cuba nor upon any party or faction among them, but to protect them in their homes, in their employments and in their personal and religious rights. All persons who, either by active aid or by honest submission, co-operate with the United States in its efforts to give effect to this beneficient purpose will receive the reward of its support and protection. Our occupation should be as free from severity as possible.

Though the powers of the military occupation are absolute and supreme and immediately operate upon the political condition of the inhabitants, the municipal laws of the conquered territory, such as affect private rights of person and property and provide for the punishment of crime, are considered as continuing in force, so far as they are compatible with the new condition of things, until they are suspended or superseded by the occupying belligerent, and in practice they are not usually abrogated, but are allowed to remain in force and to be administered by the ordinary tribunals substantially as they were before the occupation. This enlightened practice is so far as possible to be adhered to on the present occasion. The judges and the other officials connected with the administration of justice may, if they accept the supremacy of the United States, continue to administer the ordinary law of the land as between man and man under the supervision of the American commander in chief. The native constabulary will so far as may be practicable be preserved. The freedom of the people to pursue their accustomed occupations will be abridged only when it may be necessary to do so.

While the role of conduct of the American commander in chief will be such as has just been defined, it will be his duty to adopt measures of a different kind if, unfortunately, the course of the people should render such measures indispensable to the maintenance of law and order. He will then possess the power to replace or expel the native officials in part or altogether, to substitute new courts of his own constitution for those that now exist or to create such new or supplementary tribunals as may be necessary. In the exercise of these high powers the commander must be guided by his judgment and his experience and a high sense of justice.

One of the most important and most practical problems with which it will be necessary to deal is that of the treatment of property and the collection and administration of the revenues. It is conceded that all public funds and securities belonging to the government of the country in its own right and all arms and supplies and other movable property of such government may be seized by the military occupant and converted to his own use. The real property of the state he may hold and administer, at the same time enjoying the revenues thereof, but he is not to destroy it save in the case of military necessity.

All public means of transportation, such as telegraph lines, cables, railways and boats, belonging to the state may be appropriated to his use, but unless in case of military necessity they are not to be destroyed. All churches and buildings devoted to religious worship and to the arts and sciences and all schoolhouses are, so far as possible, to be protected, and all destruction or intentional dedicitment of such places, all historical monuments or archives or of works of science or art is prohibited save when required by urgent military necessity.

Private property, whether belonging to individuals or corporations, is to be respected and can be confiscated only as hereafter indicated. Means of transportation, such as telegraph lines and cables, railways and boats, may, although they belong to private individuals or corporations, be seized by the military occupants, but unless destroyed under military necessity are not to be retained.

While it is held to be the right of the conqueror to levy contributions upon the enemy in their seaports, towns or provinces which may be in his military possession by conquest and to apply the proceeds to defray the expenses of the war, this right is to be exercised within such limitations that it may not savor of confiscation. As the result of military occupation the taxes and duties payable by the inhabitants to the former government become payable to the military occupant unless he sees fit to substitute for them other rates or modes of contribution to the expenses of the government. The moneys so collected are to be used for the purpose of paying the expenses of government under the military occupation, such as the salaries of the judges and the police and for the payment of the expenses of the army.

Private property taken for the use of the army is to be paid for when possible in cash at a fair valuation, and when payment in cash is not possible receipts are to be given.

All ports and places in Cuba which may be in the actual possession of our land and naval forces will be opened to the commerce of all neutral nations, as well as our own, in articles not contraband of war upon payment of the prescribed rates of duty which may be in force at the time of the importation.

SANTIAGO CUSTOMS.

Tariff For Our New Port Signed by the President and Now In Force.

WASHINGTON, July 19.—The United States will take immediate steps to collect the customs revenues at Santiago as a war contribution.

The tariff was signed by President McKinley after a brief conference late yesterday afternoon with Secretaries Gage and Alger. The instructions were at once cabled to the authorities in charge of Santiago by Secretary Alger, so that the tariff could be put in force this morning. The new tariff abolishes the discriminative tariff now in operation there, the rates for different countries at Cuban ports varying. This country took as its basis the rates accorded the products of Spain and applies them to all countries, not even excepting the United States. The most important change effected is a reduction of the tonnage duty on ships carrying 2,000 tons or more which go in and out of the port from the present rate of $1 a ton to a rate of 20 cents a ton. This old prohibitive tonnage tax under the Spanish custom has been additional to the customs duties. In contrast to the 20 cent rate declared for Santiago is our own tonnage of 3 cents and that of most of the other countries of three or four times that much. The heavy export duty on tobacco and certain other Cuban products and the 5 cent export tax on iron are retained, for awhile at least.

Wounded Soldiers at Fort Thomas.

CINCINNATI, July 19.—The second hospital train with 84 sick and wounded soldiers from Santiago has arrived at Fort Thomas, Ky., and all are reported as doing well. Promptly on arrival the transfer was made from the Chesapeake and Ohio tracks to the hospital, and all were cared for last night in the hospitals. It is reported that there are no serious cases on the list. All will recover. There are now 225 from the front in the Fort Thomas hospitals.

Abandoning the Coast Patrol.

BOSTON, July 19.—It was learned at the navy yard yesterday that the so called "mosquito fleet" of coast defense vessels is to be disbanded and all the 29 vessels of various types attached to it at present, except the monitors, sent to Cuba or southern waters. The monitors will remain on guard along the Atlantic coast practically because they have no modern armament and the government has none to give them and because of their snail like speed.

To Give Cervera a Home.

PORT TAMPA, Fla., July 19.—A movement was started here yesterday to present Admiral Cervera a home on Tampa bay in recognition of his humane and chivalrous treatment of Hobson and crew and a desire to save him from insult and possible death should he return to Spain.

Well Known Newspaper Man Dead.

NEW YORK, July 19.—Major John Betts Hays died in Meadville, Pa., yesterday. He had been ill for several months of Bright's disease and went to Meadville several weeks ago in the hope of obtaining relief. Major Hays was a political writer and city hall reporter for the New York Tribune. He was one of the best known newspaper men in the city. Though distinguished for bravery in the war, he never thought of asking for recognition. He was born in Meadville in 1839 and was admitted to the bar in 1861. At the outbreak of the war he joined the Nineteenth infantry as second lieutenant and served in the Peninsular, Maryland and Fredericksburg campaigns, being made first lieutenant in 1862 and major in 1865.

Mamie Conkling Still Missing.

MIDDLETOWN, N. Y., July 19.—There is no clew as to the whereabouts of Mamie Conkling, the 4-year-old child who wandered into the woods on the Shawangunk mountains last Thursday and disappeared. The case still bears a mysterious aspect, though many are still inclined to the belief that the girl was kidnaped by one of the many tramps who infest the locality. Yesterday was spent by searching parties in exploring the lead mines, but the whereabouts of the missing child is still unknown.

Clergyman Becomes Roman Catholic.

PARIS, July 19.—The Rev. John Spencer Turner, formerly an Episcopal rector at Rochester, has been received into the Roman Catholic church by the Passionists at the Church of St. Joseph.

He has had an audience with Cardinal Richard, archbishop of Paris, who will confirm him tomorrow, assisted by the Very Rev. Osmond Cook and Rev. Cuthbert Turner. Mr. Turner will study for the priesthood at Rome.

The Rev. John Boyd Brady, D.D., pastor of the Boston church with the pretentious name of the "People's Temple," advertised in Saturday's papers that the subject of his Sunday evening sermon would be "To H—l With Spain." The sermon wasn't anything like as lurid as the title, but the advertising of such a subject had the desired effect and the Temple was filled to overflowing by a curious throng.

The capture of Santiago seems likely to result in a rush to that city not only of Cuban refugees but also of the representatives of American firms and companies who wish to gain a trade foothold and have an early chance in the development of the resources of Santiago and its vicinity. It is evidently assumed in commercial circles that a new era will dawn for Cuba as soon as it is freed from Spanish rule.

THE ARMY'S HEALTH.

Immune and Colored Regiments to Garrison Santiago—Other Troops to Camp on the Hills.

COPYRIGHT BY ASSOCIATED PRESS.

SANTIAGO, July 18.—Strenuous efforts to prevent the spread of infectious diseases among the victorious American troops in front of Santiago were made so soon as the city surrendered, and for the past thirty-six hours our soldiers have been sent as rapidly as possible to the hills north of the city, where new camps have been established.

Two immune regiments from New Orleans and Mobile are expected here Sunday, and they and several colored regiments will be sent into the city and will form the only American garrison force which will remain there.

The physical condition of our troops is not considered serious now, and it is believed the disease will disappear with the removal of the soldiers to healthier locations.

ARMY AND NAVY AT ODDS

Sampson Claims the Ships Surrendered at Santiago, and Shafter says They Belong to the Army.

COPYRIGHTED BY ASSOCIATED PRESS

SANTIAGO, July 19.—The question arises between the army and naval officials as to the disposition of the dozen Spanish merchant steamers which were in the harbor at the time of surrender. Sampson arrived in the city, this morning, and claimed that the steamers were prizes of the navy. Shafter, however, refused to recognize Sampson's claim, declaring that the steamers with everything else in Santiago had surrendered to him. The question is apparently undecided.

A CHINAMAN'S MAD ACT.

Blew Up Himself and Six Men Who Were Trying to Arrest Him.

OAKLAND, Cal., July 19.—The California Fuse Works were blown up by a murderous Chinaman, to-day. Six deputy sheriffs who were trying to arrest the murderer were killed. The Chinaman had fortified himself in the magazine, and blew it up when the attempt to arrest him was made.

POISONED BY EATING HASH.

WASHINGTON, July 19—Fifty-five men of Company A, 22nd Kansas Volunteers, at Camp Alger, were poisoned, to-day, by hash which was cooked in a corroded tin lined vessel. Fifteen were seriously ill and not expected to recover.

lies for some time.

THE CAPTURED CITY.

Conditions in Santiago Better Than Expected.

TRANSPORTS IN THE HARBOR.

Gen. Miles to Sail for Porto Rico, To-day.

Scenes in Santiago—Only a Few Civilians Left, but the Town Not in a Bad Plight—Much Filth but the City Healthy—Transports in the Harbor.

BY ASSOCIATED PRESS.

SANTIAGO, July 19.—Santiago is now a city of silence. The American flag waves over the military headquarters and on the Morro flag staff, and Red Cross emblems are as plentiful as church spires. Almost the entire population, this afternoon, is gathered about the wharves where the Spanish shipping, now American prizes, will soon be augmented by a large fleet of transports flying American colors.

There are but few civilians left in the city, but it does not seem in a bad plight. Some stores, mostly for the sale of liquor and drugs, are open but patrons are few. Beggars are in evidence, and now and then men and women of the better class ask the correspondents for milk "for my little one, in the name of God."

At the dock where the Red Cross steamer State of Texas is unloading and preparing for a long stay, a guard from the Ninth Infantry has been mounted, but the soldiers have little trouble.

There is no evidence of gloom on the faces of Spanish men and women. These mercurial people are already laughing and pleased at the military and naval show and the prospects of getting food other than rice and salt meats.

Filth is noticeable everywhere but strange to say the city is healthy in spite of it, but if Santiago is to continue healthy much sanitary work is necessary. Arrangements are now under way to remove the most dangerous features.

The harbor was the scene of a beautiful marine pageant, this afternoon. More than a score of American transports led by the Suwanee, gliding majestically and bedecked with flags, steamed in proudly, extending over a mile of water. How soon the Spanish troops will be allowed on these transports for shipment home cannot now be announced but the delay will be as short as possible.

The big government tug Potomac, which is equipped with modern appliances from New Orleans, will secure all that it is possible to save from Cervera's wrecked squadron.

GEN. MILES TO START, TO-DAY.

WASHINGTON, July 19.—Gen. Miles did not start for Porto Rico, yesterday, as expected, but will sail this morning, or will get away during the day some time.

THE FRUITS OF VICTORY.

The Army Captured at Santiago May be Utilized.

WASHINGTON, July 19—The ordinance Bureau is considering what to do with the large quantity of arms, ammunition, guns, and ordnance stores received from the surrender of Santiago. General Shafter reports 7,000 rifles turned over on the first day and the number will reach probably 20,000 when the troops in the surrendered zone turn in their arms. Ordnance officers believe the greater part of the guns may be put in first class order. The surrendered stores include a large stock of Mauser amunition. Officers expect to make little use of the guns on the Santiago forts for they are mostly antiquated not worth bringing here except as souvenirs.

OUR TRANSPORTS AT SANTIAGO

SANTIAGO, July 19.—All the transports, twenty in number, passed the Merrimac and entered the harbor, this afternoon. It will probably be necessary to blow up the Merrimac to make the channel safe for war vessels. Some of the paroled Spanish officers have expressed the confident hope that Santiago will be retaken by Spain.

Admiral Sampson arrived in the city on the Vixen, to-day.

NOT WORRIED ABOUT GERMANY

WASHINGTON, July 19.—The Navy Department has received no dispatches from Dewey relating to the press reports concerning our relations with Germany, but the officials feel much less concern over Germany's attitude and there is good reason to believe direct assurances have been received from Germany that she will offer no obstacles to the execution of our plans.

NEARLY 23,000 SPANISH PRISONERS

WASHINGTON, July 19.—The War Department has received a dispatch from Gen. Shafter saying that the roster of prisoners handed in yesterday, by Gen. Toral shows a total of 22,780 men.

Gen. Shafter's dispatch added that the prisoners turned over to him far exceeded in numbers the strength of his own army.

CUBANS LIKELY TO MAKE TROUBLE

Angry Because They Were Not Allowed to Pillage Santiago—Garcia Refused Shafter's Invitation to be Present When the City Surrendered.

COPYRIGHTED BY ASSOCIATED PRESS.

SANTIAGO, July 18.—A fact which is impressed more and more every day upon the Americans is the increasing strained relations between the Americans and Gen. Garcia's Cuban soldiers. There is practically no communication at all between the two armies.

As soon as Shafter announced his decision not to let the Cuban Junta enter the city, deep mutterings were heard among Garcia's men, for they confidently expected Santiago would be turned over to them to loot and plunder as they had in succession sacked Baiquiri, Siboeny and El Caney.

General Shafter yesterday sent an invitation to Garcia to attend the ceremony of raising the American flag over Santiago but the Cuban General showed his resentment by sending a reply which simply confirmed the course which he and his ragged, ignorant, soldiers have followed during the weeks of hard fighting. He declined the invitation; said he hated the Spaniards and added he did not want to be where they were. Since then the Cubans have remained in their camp.

A VERY SMALL MATTER.

GIBRALTAR, July 19.—It is said that Mohammad Torras, the Moorish Minister of Foreign Affairs at Tangier, has refused to declare Morrocco neutral in the war between Spain and the United States.

WITH THE FIRST REGIMENT.

Several Promotions Announced—Unhealthy Camp Merritt Abandoned.

Several promotions were announced, Monday, in Col. Barber's regiment, the First New York. Lieut. Arthur W. Pickard was made Captain; Quartermaster-Sergeant James P. Goodale was made Second Lieutenant, and Second Lieutenant F. Thomas Wood was made First Lieutenant.

The regiment is now encamped at the Presidio. Camp Merritt, to which it was sent on reaching San Francisco, has been condemned as unhealthful and all the troops have been removed from it. Camp Merritt was on a sandy waste and the troops quartered there suffered many discomforts.

HER FINGER AMPUTATED.

Peculiar Accident to a Newburgh Woman While Alighting from a Brooklyn Street Car.

Mrs. Carrie Brown, of Newburgh, was a passenger on a Bushwick avenue car in Brooklyn, Monday. In alighting from the car she caught hold of a brass hand rail, and as she stepped down into the street her wedding ring caught in the sharp edge of the rail, and in a twinkling the ring cut through the finger, just above the joint, completely amputating it. Doctors were called and the wound was dressed and Mrs. Brown went home.

DRAGGED BY HIS TEAM.

The Driver of a Brewery Wagon Had an Exciting Experience.

The whiffletrees dropped on the heels of a team drawing the Burton Brewing Company's delivery wagon, Monday night, on Railroad avenue near North street. The horses left the wagon, and Patrick Lee, the driver, was dragged nearly to Grove street before they were stopped.

A lad named Jas. Doyle, who was riding with Lee, was thrown out, but escaped with a few bruises.

A Suit for the Rent of a Store.

The suit of Benjamin Low and Frank Harding, executors under the will of Harriet Low, deceased, against L. R Garrison, was tried, this morning, before Justice Payne and a jury. The suit was for two months' rent of the store at North and Orchard streets, formerly occupied by Garrison as a market. The jury found a verdict for plaintiffs for the full amount claimed and costs. M. J. Donovan was attorney for plaintiffs, and Philip A. Rorty for defendant.

THAT HORSEWHIPPING IN GOSHEN

Frank Springer's Version of the Lashing He Gave Amos B. Doremus.

From Our Goshen Correspondent.

Frank Springer, the young man who was unfortunately mixed up in the horsewhipping affair, last Thursday, is of the opinion that he has been unjustly blamed for his part in the scrimmage.

It is logical that there are two sides to every occurrence of this kind, and Mr. Springer's story is to the effect that he was racing with the man Doremus, that he had raced on two Thursday nights previous with him, and that as they were coming down Main street, side by side, with Springer on the left hand, Doremus cut across from the right and drove into the wagon containing Springer, at the same moment cutting him several times with the whip. It was then that Springer retaliated. The wagon containing Doremus collided with another wagon immediately after the hostilities ceased.

Mr. Springer says that while he mistook Doremus for a man who stole an overcoat, that was not the cause of the horsewhipping.

The Hot Wave Likely to Continue for Several Days.

The weather prophets hold out no hope of early relief from the hot and sultry weather which is now making existence so uncomfortable. On the contrary, for several days the heat is likely to increase and the air become more sultry. W. A. Lawrence Wants $5,000 for Its Failure to Keep an Agreement.

W. A. Lawrence, of Chester, has sued the National Trotting Association in the United States Circuit Court for $5,000 damages for alleged breach of contract. The complaint alleges that when Mr. Lawrence sent a number of horses to Germany for sale, in December last, he paid the association its fees for sending certificates of the records of his horses to his representative at Millencamp, Germany. The association, however, sent the certificates to him at his home in Chester, thus delaying the sale of the horses, imposing extra cost for their care, and obliging him to sell the horses at lower prices than would have been realized had the certificates been sent as agreed.

The man may be able to whip the lion single-handed, but he is not taking chances, and is not going to disdain the assistance of helpers with hot irons. The same is true of a wise man who is having a tussle with ill-health. It is barely possible that he may have the natural inherent resisting power that will enable him to conquer disease without the assistance of medicine, but he is not willing to take the chances and will not disdain the help of the right remedy.

When a man feels out-of-sorts, when his head is achey, dull and heavy, his body lazy, his nerves jerky, his sleep broken, his appetite finicky, his skin sallow, his breath foul and his mouth bad-tasting, he is having a struggle with ill-health. If he is wise he will take Dr. Pierce's Golden Medical Discovery. It gives edge to the appetite and makes the digestion perfect. It invigorates the liver. It makes rich, red, pure blood. It puts vim into every organ and fiber of the body. It drives out all impurities and disease germs. It imparts the glow of health to the skin and the vigor of youth to the muscles. It tones the nerves and gives refreshing sleep. It builds firm flesh, but does not raise the weight above Nature's normal. It cures 98 per cent. of all cases of consumption. All medicine stores sell it. An honest dealer will not suggest a worthless substitute for the sake of a little extra profit.

The most valuable book for both men and women is Dr. Pierce's Common Sense Medical Adviser. A splendid thousand-page volume, with over three hundred engravings and colored plates. A copy, paper-covered, will be sent to anyone sending twenty-one cents in one-cent stamps, to pay the cost of mailing *only*, to Dr. R. V. Pierce, Buffalo, N. Y. Cloth-bound 31 stamps.

Little five-year-old Willie had a very bad memory and his mother had a hard time teaching him to say "if you please" when he wanted anything. The other evening at dinner he said: "Mamma, hand me the butter." "If you what, Willie," she asked. "Why, if you can reach it," was the reply.

Tommy, aged four, was very fond of cookies and was always begging for some. One day he was over at a neighbor's, and getting hungry he asked for a piece of bread and butter. To take bruises out of furniture wet the part with warm water; double a piece of brown paper several times, soak it in warm water and lay it on the place; apply to this surface a warm, not hot, flatiron until the moisture has evaporated. NEWSPAPERARCHIVE®

OBITUARY.

Joseph Brown.

Joseph Brown, a well known engineer running on the New York Division of the Erie, died at his home in Port Jervis, Sunday, of cancer, which affected his neck. He is survived by his widow and six children.

Michael J. Kadel.

Michael J. Kadel, a son of John Kadel, of Port Jervis, died at his home in New York, Monday. The deceased was for a time in the hotel business in Port Jervis and later removed to New York where he conducted two large restaurants and manufactured syrups, extracts and flavors on an extensive scale.

He leaves a wife and three children.

Arthur Babcock.

Dwight Babcock received word, this morning, of the death of his brother, Arthur Babcock, at Binghamton. He at once left for that city on Erie No. 1.

The deceased was engaged in the sale of patent boiler flues. He was unmarried, and is survived by one brother, Dwight, of this city, and one sister, Mrs. James E. Scott, who is now visiting at Monticello.

John B. Layton.

John B. Layton, an old and respected resident of Port Jervis, and for many years a prominent business man of that village, died, Monday morning, aged eighty-one years and seven months.

Mr. Layton was born in Sussex county, N. J., and he conducted a general store at Layton's for many years. In 1870 he removed to Port Jervis and engaged in the grocery business there, retiring sixteen years ago. He was a director in the First National Bank of Port Jervis, having held that office ever since the organization of the bank. Two years ago he was made its Vice President.

He is survived by two sons, Joseph E., of Branchville, N. J., and D. D., of Susquehanna county, Pa.

Michael J. McGreevy.

Michael J. McGreevy died, this morning, of a bronchial trouble, at his home on North street, aged thirty-six years. He was a son of the late Patrick and Marcella McGreevy, and was born in Ireland, coming to this country with his parents when a boy. The family lived for a year in Hamilton, Ohio, and then removed to this city, where the deceased resided up to the time of his death.

He was employed in the rolling mill at the saw factory until it shut down, since which time he has been employed in various occupations.

Fifteen years ago he married Maggie Reagan, who survives him. They have no children. He is also survived by a brother, Patrick McGreevy, the well known ball player, and two sisters, Julia, at home, and Katie, wife of Timothy Mongan.

The funeral will be held Thursday, from the house, 252 North street, at 10 o'clock, and at 10:30 at St. Joseph's Church.

Mrs. Jane Van Keuren Gibb.

Mrs. Jane Van Keuren Gibb, widow of Eleazer W. Gibb, died, Monday afternoon, at the home of her daughter, Mrs. Wisner Seeley, at Van Burenville, aged sixty-two years. She had been in failing health for four months, and her final illness was of five days' duration. Death was due to a complication of diseases.

Mrs. Gibb was born at West Hurley, Ulster county. She was a daughter of Tjerick and Elizabeth (Sinsabaugh) Van Keuren. She resided in the town of Wallkill nearly all her life. March 30th, 1866, she married Mr. Gibb, who had served with distinction in the civil war. He died Dec. 7th, 1889.

Five children were born to them, of whom three survive: Emma L., wife of Wisner Seeley, with whom the deceased made her home; Daniel, of Jersey City, and Charles A., of this city. Charlotte, wife of George Gregory, died several years ago, and Benjamin died in infancy.

Mrs. G. W. Decker, of the town of Wallkill, is a sister of the deceased. Mrs. Harriet Scofield and Mrs. Emily Dolloway, both deceased, were also sisters. The late Harvey Van Keuren was a brother.

Mrs. Gibb was a faithful christian and a devoted mother, and "her children rise up and call her blessed."

Has Gained Seven Pounds.

From the Asbury Park Spray.

Physicians make no mistake when they recommend patients to come to Asbury Park. This is well attested in the case of George G. Otis, the genial manager of the Orange County Telephone Company, Middletown, N. Y., who has gained seven pounds during his week's sojourn. Asbury Park ozone and the cuisine of the Metropolitan accomplish wonders in a man's avoirdupois.

Got Off Very Easily.

A young man named Johnson, employed as a farm hand by W. D. Mills, who lives on the Henry R. Corwin farm, stole $10 from a fellow-employe and started for this city. The money was missed, and he was captured on Lake avenue. He gave up the money and was released.
